

RESTORE-Skills

Evolve Therapy: Optimizing Reimbursement with RESTORE-Skills

Evolve Therapy clinicians demonstrated greater patient participation during therapy sessions when benefiting from RESTORE-Skills. RESTORE-Skills increases engagement and activity tolerance, improves outcomes, and increases overall reimbursement potential.

REIMBURSEMENT OPPORTUNITIES WITH MEDICARE PART B

Over a one-month reporting period, the total therapy sessions delivered to Medicare Part B patients demonstrated higher Units Per Visit (UPV) when performed with RESTORE-Skills compared to the facility average using traditional approaches, driving an average of \$3,000 additional Part B revenue per facility.

MEDICARE PART B PATIENT - OVERALL MONTHLY IMPACT

Facility	Total Therapy Visits	Facility Average Units Per Visit (UPV)	RESTORE Session Average Units Per Visit (UPV)	Additional Part B Revenue*
Paramount	90	2.62	3.35	\$2,732.4
Lexington Premier	121	2.92	3.81	\$3,663.36
Average Monthly Potential Impact Per Facility			\$3,197.88	

*Revenue impact generated due to increased therapy units provided with RESTORE-Skills based on estimated CPT code 97110 - \$30.36 per unit.
