

RESTORE-Skills

Garden & Reliant: Optimizing Reimbursement with RESTORE-Skills

Reliant Rehabilitation clinicians witnessed greater participation while playing RESTORE with patients of Garden of Wesleyan Village. The team members noted increased engagement, greater activity tolerance, and better therapy outcomes. Additionally, overall reimbursement potential and benefits across payers increased.

MITIGATED THERAPY REFUSALS → REIMBURSEMENT OPPORTUNITIES

Over a one-month reporting period, the total number of mitigated therapy refusals that were recovered was 29. Introducing RESTORE-Skills led to increased reimbursement, with an average of \$2610 in additional Part B revenue.
